AIR FORCE ASSOCIATION CAP UNIT AE GRANT

RICHARD A. ORTEGA
VP, AEROSPACE EDUCATION
AFA, FLORIDA

June 20, 2010

OBJECTIVE: For many years, the Air Force Association (AFA) has recognized the significant aerospace contributions of Civil Air Patrol (CAP). In an effort to demonstrate the esteem AFA holds for the work of CAP, the AFA provides grants to CAP units. These CAP Unit Grants were initiated to help ensure that future generations of Americans:

- A – Appreciate the important role of aviation and space in America's future.
- B – Have the technical knowledge necessary to understand aerospace issues.
- C – Have the educational background required to pursue aerospace careers.

GUIDELINES: Florida CAP Units are invited to take advantage of the AFA's CAP Unit Aerospace Education Grant program. Interested CAP units should proceed as follows:

- 1 – Visit website: http://www.capmembers.com/aerospace_education/general/afa.cfm
- 2 – On the new screen, left click on AFA's CAP UNIT AE GRANT on the middle of the page.
- 3 – On the new screen, download the required application forms listed inside the RELATED DOCUMENTS box located on the upper-right-hand corner of the page.

AFA (Florida) Chapter Presidents and Chapter Aerospace Education Vice Presidents should forward this information to Florida CAP Group Commanders and CAP Squadron Commanders assigned to their Chapters. A current report, listing all CAP Groups/Squadrons assigned to each of the 15 AFA Chapters in Florida will be emailed to Chapter Presidents July 1, 2010.
